ANCIENT YOGA FOR CHILDREN WITH SPECIAL NEEDS

Ancient Yoga for Special Children is a unique opportunity for learning and healing. It features a system of gentle and nurturing physical, mental and energetic movements. These movements stimulate and strengthen a child, enhancing the connection between the mind and the body. Each child can participate according to his individual and developmental needs. It is a non-verbal language that improves health, perceptual abilities, moods and energy.

Ancient Yoga is fun for children! Children love to do yoga because it's a chance to be playful, a child's natural state, and this activates a child's inherent wisdom, flexible action and creativity. As a child learn yoga, his/her will increase perceptual abilities and help to build her relationship with themselves and strengthen the connection between child, parents and the world.
