Healing does not use any medication or instruments, but uses looking, blowing, light tapping, and touching. If touched the diseased parts of the body, he massaged them, tapped them lightly, stroked them, blew on them, fixed his gaze upon them for two to three minutes, and specifically gave them energy, and used a technique commonly referred to as palm healing as a form of complementary and alternative medicine. Through the use of this palm healing, practitioners believe that they are transferring healing energy in the form of bio field (qi) through the palms chakra.

Some of application of Healing can be for plants, to water before drinks, to human's body parts, to universe for world peace.

INTERNATIONAL PARTICIPANTS SAY.....

After my initiation and practicing, I went for a holiday where my son experienced chronic stomach ache. I did water healing for him to drink and it stop within 2 minutes. Another amazing experience was when we recently shifted to new housing estate where none of the houses had plants / flowers growing properly. I watered my plants with energised water for about 2 weeks. Now most my neighbors have started asking why only my house has healthy plants with fresh flowers.. Premavathy (Mrs), Klang, Home Business

"I have experienced taking healing from Pranic Healing experts; Now, I'm glad that I can do healing myself too. Never knew it's so simple, yet most powerful personal encounter beyond imagination" Michael Lai Choon Wing (Mr.), Klang Malaysia (Crystal Experts)

The experience was magical and I felt the energy emanating from my palms as I energized the water. I could taste the difference in the water before and after the energizing session. The water tasted like Gangothri water. I am looking forward to the second and third sessions, and eventually becoming a qualified borderless healer. Kana Gopal (Mrs), Singapore (Entrepreneur)

With a Masters degree in Mathematics, and being a left-brainer for so long, the initiation and experience is beyond my logical mind. My grasp of the theory increased in follow-up workshops. I have started healing others. My childhood ambition was to be a medical doctor. Right now, with the Ancient Healing Techniques, I feel I can be a natural 'doctor' serving humanity. By practicing self-healing, just 10 minutes of daily, within less than 3 weeks, I'm able to think with greater clarity and perform at my optimum level in business meetings. Anita Ramamoorthy (Mrs.), India (Lecture)

"Its amazing the Ancient Healing Facilitator can scan and spot the actual medical pain in body"

Dr. Gopaldas, Malaysia (Ayuvedic)

My Vedic Guru, Elan, is one of the great souls that I met in SHINE (Self-Help International Network Enterprise) community meeting. I like to balance my left brain work, which is mainly technical projects, with ancient knowledge and increase my personal awareness. This helps me to be more creative, be open for new ideas, spiritual flows and creating a balance in life.

I learnt simple, yet powerful and effective techniques. Within days of doing it, i feel superb energy flow. The Prana Shakti that flows upon his initiation is awesome, remarkable, unbelievable. It is a great discovery about my own energies and a proof that these energies are here. Rather than reading from books, these can only be experienced from learned masters in the field. Elan is a walking encyclopedia of ancient arts. Even my friend, a Reiki Master Healer said, the practice is very powerful. Peter Wyss (Mr.), Switzerland, Managing Director (Project Consultant), El. Eng. B.Sc. / MBA, Certified Trainer, Coach (NLP & ICF)

The healing initiation is so powerful, without even specific Kundalini Initiation by Guru, I started feeling sensation at my Third Eye 'Ajna Chakra' spot. Jeyabarathy Thangavilo (Ms.), Malaysia (Technical Staff)

"I've been doing meditation on my own, I know about healing through books, but this is first time I witness my own self energy of Qi or Prana, that can also heal others. All 3 level of initiation is divine experience. I highly recommend this to everyone.
